

# GOTTA GO

How can I explain the way to go  
Do we start with the idea of one world  
No boundaries for the time of solidarity  
To a flag, a border, an anthem

People united by fear or common threat  
And pride through numbers

Survival against the other

We can know that we are all survivors regardless of the same

We know we are those who have our fear to tame

Against each other

That exclusion by race from within a race or from without a race  
Puts a conflict on our place.

Where we have to get up and go about the daily tasks of maintenance and  
hope of satisfaction

Ethnic pride let it slide

Don't deny ,don't let it stand in your way

It will not identify you      Person

It does not represent a character or spirit of the individual

It does not represent worthiness

We are obsessed of our self worth

The cloak of breeds and ethnicity disguise our stances

Money may be used to index one against another

Heritage and physiognomy, the gates of country

Are pleasure, rapport , and sorrow and shame.

Ethnicity and nationality are red badge of courage to persecuted.

And the mark of a dog to the privileged.

The task is to familiarize our ethnicities, mingle nationalities and force ourselves to learn what we are not inclined to learn because of conditioning.

Motivation according to country, organized, belief, systematized pride and vulnerability, religion, race, and material edge cloisters persons from each other and individual from his phenomenal existence.

We can think group and self

Self cannot fully potentiate without consciousness of group.
